

Profile of Deepay Mukerjee

Mr. Deepay Mukerjee is currently the President & CEO of National Institute for Chemical Studies (NICS). NICS is headquartered in Charleston, West Virginia, and is known nationally for helping communities manage the environmental, health and safety risks associated with the manufacturing, transportation, storage/handling and disposal of chemicals around the nation. NICS has been instrumental in revitalizing many CAP's (Community Advisory Panels) around the chemical industry sites under Deepay's leadership. Mukerjee has been actively involved in Brownfield programs in West Virginia for the last 4 years and has the responsibility in the licensing of Remediation Specialists in State's Voluntary Programs. He also serves on the DEP's 'Technical Advisory' committee

Prior to joining NICS, Mukerjee spent 20+ years in the industry and has always been involved in environmental (specifically related to air and water) and safety issues. During the earlier years of his career, Mukerjee designed innovative ways of reducing human exposure to chemicals in the plants. During his career, he has received many awards including the Blue Chip Enterprise award in 1998.

On the academic side, Mukerjee has a masters degree in Business Administration and Chemical Engineering. He is also a member of the Beta Gamma Sigma honor society. He has served on several Boards and served as an executive committee member in various trade associations like AIChE, CMA, AWMA, ACS, IMPI and others. During his spare time he coached Debate teams and served as a Judge in National competition. He also enjoys bridge, golf, tennis and travelling. Mukerjee lives in Charleston, West Virginia with his wife and two children.
