This Manual has been reviewed by the Office of Compliance, U.S. Environmental Protection Agency, and approved for publication. This guidance represents EPA's recommended procedures for conducting FIFRA compliance inspections. Deviations from this guidance on the part of any duly authorized official, inspector, or agent to follow its contents shall not be a defense in any enforcement action; nor shall deviation from this guidance constitute grounds for rendering the evidence obtained thereby inadmissible in a court of law. The mention of trade names or commercial products constitutes neither endorsement nor recommendation for use.
