

BASE Buildings Pollutant Sources: Location of Water Damage - Past and Current Water Damage

Location of Water Damage	Number of Buildings Reporting	
	Past Water Damage ¹	Current Water Damage ²
Basement	28	13
Roof	50	15
Mechanical Rooms	17	3
Occupied Space	71	34
Total Number of Buildings Reporting	85	45
<p>Notes:</p> <p>¹Number of buildings based on those buildings reporting past water damage (n=85). Number of buildings within column may add up to greater than the total number of buildings as some buildings indicated more than one location for past water damage.</p> <p>²Number of buildings based on those buildings reporting current water damage (n=45). Number of buildings within column may add up to greater than the total number of buildings as some buildings indicated more than one location for current water damage.</p>		

Variable Descriptions:

Past Water Damage refers to water damage that occurred in the past but no longer existed at the time the building study was conducted.

Current Water Damage refers to water damage that existed at the time the building study was conducted.

For both current and past water damage, the following categories apply:

Basement refers to basement water damage or water leaks.

Roof refers to water damage or water leaks occurring at the building roof.

Mechanical rooms refers to water damage or leaks in the building's mechanical spaces.

Occupied space refers to water damage or leaks occurring in occupied areas of the building.
