

**“NEW SOURCE REVIEW (NSR)” (Level 3)
Research Triangle Park, North Carolina
July 29-31, 2008**

Pre-Registration Date (for priority consideration): **May 23, 2008**
Download application form [here](#) [PreReg_NSR.pdf, 7 pgs]

Course Description: This course will help tribes understand the New Source Review (NSR) program and how it could potentially impact individual tribes.

Topics include:

- Non-Attainment Area New Source Review (NAA-NSR)
- Prevention of Significant Deterioration NSR (PSD-NSR)
- Minor New Source Review
- Implementation of New Source Review

Who should attend: This course is open to tribal air quality professionals who have successfully completed at least two ITEP air quality courses, one of which is the Management of Tribal Air Programs and Grants course (previously called Air Quality Program Administration). Attendance at the NSR course will be contingent upon completion of a pre-course assignment. Instructions for the assignment will be sent to participants with notice of their selection for this course.

Course Structure and Approach: This is an advanced and interactive course. There will be lectures and discussions with visual aids, as well as small-group activities. Some homework will be assigned during the course.

How to Apply for the Course: Read all enclosed information carefully. Fill out both sides of the enclosed Application Form and fax it to ITEP by the Pre-Registration date listed for priority consideration. Applications received after the pre-registration period will be reviewed on a case-by-case basis.

The “Personal Data” section is required for first-time applicants or applicants who need to update information. The “Course-Related Information” section is required of all applicants. Information obtained on the application form is used to aid the selection process and prepare instructors for interaction with participants; please be as specific as possible. Incomplete application forms may be omitted from the applicant pool.

Selection for the course will be on a "space availability" basis and will be limited to 16 registrants. ITEP staff will review each application and will determine those who would most benefit from this training.

Training Course Costs: Lodging and reimbursement for meal costs will be paid by Northern Arizona University and the US Environmental Protection Agency and will be limited to course participants from federally recognized tribes. Costs for transportation to and from the training location, as well as incidentals such as phone calls, and room service are the responsibility of the participant. However, stipends to cover some or all

of the costs associated with transportation to/from the training location can be granted by ITEP to eligible applicants. Stipends are awarded based on availability of funds and participants are encouraged to apply. Reimbursement forms must be submitted 10 business days after the end of the course.

Travel and Hotel Arrangements: Your hotel reservations will be made by NAU. Detailed information regarding hotel arrangements will be sent to you with notification of your selection for this training course. Lodging costs are FREE to tribal participants, provided that they attend the entire course. Please read the enclosed “Attendee Expectations” sheet for more information. Transportation arrangements to and from the training location are the responsibility of the participant; however, you must obtain a letter of selection for the course prior to making airline arrangements. Families are not encouraged to travel as full participation by the attendee is required.

Additional Responsibilities: Once you have agreed to attend it is absolutely essential that you complete the training course in full in order to receive your Certificate of Completion. If you must cancel after a travel stipend has been awarded, we will require full reimbursement of the stipend and any other costs incurred.
