**Voluntary Product Stewardship Programs**

- o On September 29, 1995, members of the Aniline Association, Inc. formally agreed to voluntarily conduct a rat dominant lethal test on aniline.
  
- N** This particular test is needed by EPA to complete its ongoing assessment of aniline which was begun following testing which was completed on aniline and 7 chloro-, bromo-, and nitro-anilines under a TSCA §4 Enforceable Consent Agreement (ECA) signed on August 19, 1988 (53 FR 80314).
