Corporate Citizenship E-cycling

EPA Partners With Best Buy To Recycle Electronics As A Part of Ongoing Hurricane Katrina Cleanup Efforts

EPA and Best Buy have teamed up to increase collection and safe recycling of computers. This month, Best Buy also will collect and pay for the environmentally safe recycling of computers, monitors, and televisions that are currently held in certain staging areas in the county.

Corporate Citizenship

EPA and Dell To Recycle Electronic Equipment Destroyed by Hurricane Katrina

EPA and Dell Inc. are teaming up to increase collection and safe recycling of computers and other electronic equipment destroyed by the effects of Hurricane Katrina.

Consumers in the New Orleans region can drop off any brand of old or unwanted computer equipment.....

White Goods

- Freon Extraction

Propane Tanks, Cylinders, Batteries

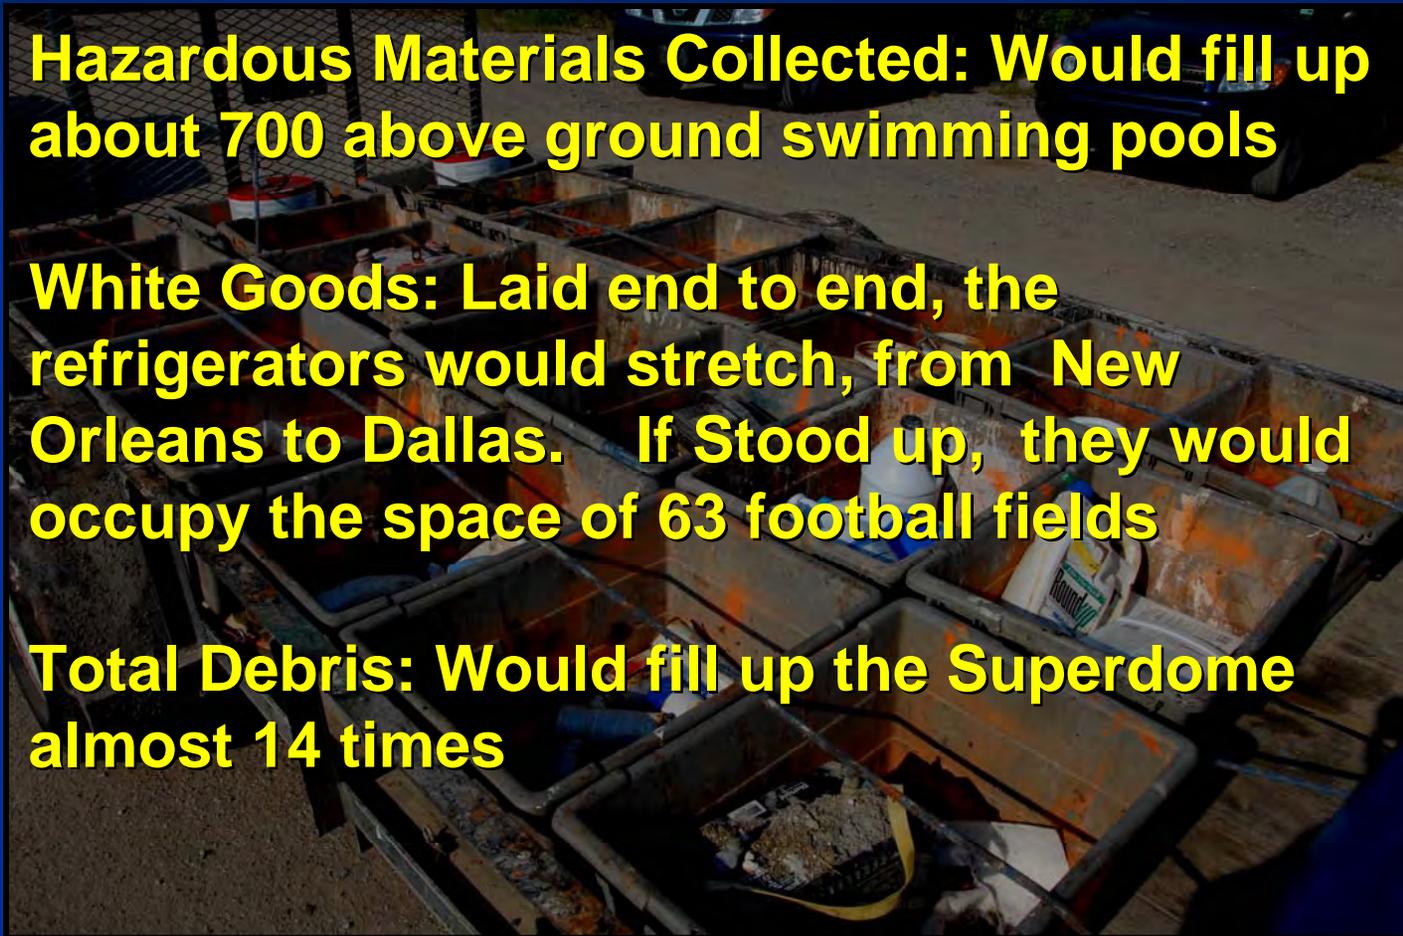

In Comparison

Hazardous Materials Collected: Would fill up about 700 above ground swimming pools

White Goods: Laid end to end, the refrigerators would stretch, from New Orleans to Dallas. If Stood up, they would occupy the space of 63 football fields

Total Debris: Would fill up the Superdome almost 14 times

Transition to ESF-3

US EPA transitioned the Household Hazardous Waste Collection and Pad Operations to the US Army Corps of Engineers Under ESF-3 on November 22, 2006
