

Activation of the Region 6 RRT

Date: 02/08/07
Subject: Helotes Debris Fire, Helotes, TX

On the afternoon of February 8, 2007, Ragan Broyles, Co-Chair of the Region 6 RRT, convened a conference call of the members of the RRT.

The subject of the conference call was to discuss the on-going debris fire in Helotes, Bexar County, Texas.

Jeff Lewellin and Kelly Crunk provided a history of the event, as well as a current situational report.

Several members of the RRT provided suggestions for the TCEQ and contractors on fire suppression efforts. TCEQ advised that most of the suggestions had already been considered and rejected for various reasons (environmental, timeliness, cost).

TCEQ agreed to keep RRT members apprised of further actions, and if necessary, request an additional call to gain input from the RRT members.

No further action items were identified during the call and the call was ended after approximately 45 minutes.
