

COMPLIANCE TIMELINE¹
NATIONAL EMISSIONS STANDARDS FOR HAZAROUS AIR POLLUTANTS FOR
RECIPROCATING INTERNAL COMBUSTION ENGINES
Existing² Spark Ignition 4-Stroke Rich Burn Engines
(Final rule, 69 FR 33474)

¹ This timeline does not take into account special situations such as compliance extensions.

² Existing 4SRB: stationary RICE with a site rating greater than 500 brake horsepower, the construction or reconstruction of which was commenced before December 19, 2002 [63.6590(a)(1)].

³ For area sources that become a major source: stationary RICE that commence construction after the date the area source becomes a major source must be in compliance upon startup; stationary RICE that commence construction before the date the area source becomes a major source must be in compliance within 3 years after the area source becomes a major source [63.6595(b)].

⁴ A performance test must be conducted if complying with emission limitations and operating limitations. An initial performance test is not required if a performance test has previously conducted and the test meets the requirements in 63.6610(d)(1) through (5).

⁵ After compliance is demonstrated for two consecutive tests, the frequency of the subsequent tests may be reduced to annually. If any subsequent annual tests indicate that a RICE is not in compliance, semiannual performance testing must be resumed. In addition, you must resume semiannual performance testing if you deviate from any of the operating limits. [Table 3 of Subpart ZZZZ]

⁶ The initial semiannual report must cover the period beginning on the compliance date and ending on June 30 or December 31, whichever date is the first date following the end of the first calendar half after the compliance date [63.6650(b)(1)]. Subsequent reports cover the semiannual reporting period from January 1 through June 30 or July 1 through December 31 [63.6650(b)(3)].

⁷ If you are subject to permitting requirements under title V (40 CFR part 70 or 71), you have the option of submitting your semi-annual compliance reports according to the schedule established by the permitting authority for title V monitoring reports [63.6650(b)(5)].
