FEB - 4 2003

4APT-APB

Lewis Shaw, Deputy Commissioner
South Carolina Department of Health
and Environmental Control
2600 Bull Street
Columbia, South Carolina 29201

Dear Mr. Shaw:

Thank you for your submittal of Early Action Compacts for the Appalachian, Pee Dee, Waccamaw, Santee Lynches, Berkeley-Charleston-Dorchester, Low Country and Central Midlands areas in South Carolina, which were received on December 23, 2002. The counties that are included in these Compacts are listed in the enclosure. (Early Action Compacts were also submitted for the Catawba, Upper Savannah and Lower Savannah areas; these submittals are addressed in separate responses.) The Early Action Compact process was designed to protect human health by enabling an accelerated local approach to ozone attainment, and to encourage early emission reductions that will ensure attainment of the 8-hour ozone standard. The Early Action Compact protocol, which was endorsed by the Environmental Protection Agency (EPA), Region 6, on June 19, 2002, is intended to be used in developing and implementing control strategies, accounting for growth, and achieving and maintaining the 8-hour ozone standard. As such, it represents a key component to this area's Early Action Compact. In these Early Action Compacts, you have committed to a planning process that will result in cleaner air for South Carolina, potentially prior to the regulatory deadlines that will be established for 8-hour ozone standard nonattainment areas.

As you know, EPA has not yet designated areas as attainment or nonattainment for the 8-hour ozone standard, an action which will take place by April 2004. Prior to EPA's designations for the 8-hour ozone standard, the Agency is soliciting recommendations from the states by April 2003, and will review these submittals based on the March 28, 2000, guidance, submit an official response to the states by October 2003, and have discussions to resolve any remaining issues during the following 120-day period as provided by the Clean Air Act. Through our acceptance of these Compacts, EPA is not prejudging the outcome of the 2004 designations process.

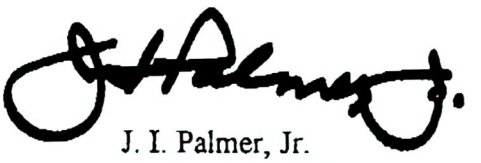
We support your efforts to promote early attainment of the 8-hour ozone health standard and believe that these plans will be beneficial to the citizens of these aforementioned areas. EPA Region 4 is pleased to be a signatory to this Early Action Compact. I have enclosed copies of the

signed Compacts (these are enclosed in the package that was mailed to your State Air Quality Agency) and encourage you to share these documents with the local agencies in your State that are part of the process, including your transportation planning partners and other interested stakeholders such as environmental and industrial representatives. EPA Region 4 will continue to work closely with you to assist in this stakeholder planning process, and is developing a web site for the Early Action Compact process to assist you in this effort. This web site will have copies of all of the Compacts which have been approved. The web site address will be provided to your State Air Quality Agency as soon as it is available.

EPA may determine later in the designation process that a county which is part of or adjacent to a nonattaining CMSA or MSA, and not a participant in the compact, should be included along with the remainder of the CMSA or MSA as a nonattainment area. If this occurs, then that county, and the entire nonattainment area, will be ineligible for deferral of its nonattainment designation.

If you have questions or would like to discuss this issue further, please feel free to contact me or have a member of your staff contact Kay Prince of the Region 4 staff at (404) 562-9026.

Sincerely,



J. I. Palmer, Jr.
Regional Administrator

Enclosure

cc: James A. Joy, III, SC DHEC

Counties included in these Early Action Compacts

Appalachian Area (includes the Greenville-Spartanburg-Anderson MSA)
Cherokee County
Spartanburg County
Greenville County
Pickens County
Anderson County
Oconee County
Pee Dee Area (includes the Florence MSA)
Florence County
Chesterfield County
Darlington County
Dillon County
Marion County
Marlboro County
Waccamaw Area (includes the Myrtle Beach Area)
Williamsburg County
Georgetown County
Horry County
Santee Lynches Area (includes the Sumter Area)
Clarendon County
Lee County
Sumter County
Kershaw County
Berkeley-Charleston-Dorchester Area (inlcudes the Charleston Area)
Dorchester County

Berkeley County
Charleston County
Low Country Area (includes the Beaufort Area)
Beaufort County
Colleton County
Hampton County
Jasper County
Central Midlands Area (includes the Columbia MSA)
Richland County
Lexington County
Newberry County
Fairfield County
